

## Stainless Works New Product Announcement

**Stainless Works** introduces 304 SS CNC mandrel bent headers and dual exhaust for your **68-72 Chevelle LS1** engine conversions. Long tube headers are available with 1-7/8" or 1-3/4" diameter primaries and 3" slip fit collectors with O2 sensor bungs installed. Use Street and Performance LS1 mount adapters for the best fit. Headers can be adapted to your custom exhaust system or fit up perfectly to our Stainless Works Exhaust System. We have a huge 3" mandrel bent dual exhaust system with x-pipe and dual turbo mufflers that exit under the rear bumper. These systems include all clamps and hangers for easy installation.

Part Number	Year	Make	Model	Engine	Diameter	List Price	Weight
CVLS1	68-72	Chevrolet	Chevelle	LS1	1-7/8" primaries with 3" slip fit collectors	\$990.00	40 lbs
