

Stainless Works New Product Announcement

Stainless Works introduces a new line of 304L SS mandrel bent exhaust products for the **2005-2010 Mustang GT**. Headers with either 1-5/8" or 1-3/4" primary tubes and 3" catted or off road lead pipes are available to fit factory connection points. We have many product combinations including off road manifold products with x-pipes, and 3" dual catback exhaust systems with x-pipes and chambered or more aggressive s-tube turbo mufflers. Exhaust systems include SS polished tips with all necessary hangers and clamps.

Part Number	Year	Make	Model	Engine	Diameter	List Price	Weight
M05H	2005-2010	Ford	Mustang GT	4.6L	Headers with 1-5/8" primaries and 3" catted leads	\$1,609.02	50 lbs
