

Stainless Works New Product Announcement

Stainless Works introduces the complete line of 304L SS products for the **2008-2010 Pontiac G8**. Long Tube headers with 1-7/8" dia primaries with hi flow catalytic converters or offroad lead pipes connect directly to our chambered turbo muffler dual 3" catback exhaust system. We also offer a dual 3" chambered turbo muffler exhaust system to connect directly behind the factory cats, and a 2 1/2" axle back s-tube turbo muffler kit and 2 1/2" muffler delete kit. Both kits bolt up as axle back muffler replacements. All Exhaust systems come with 304L SS mirror polished 3" x 6" wide oval slash cut and angle cut tips that match the contour of the G8 perfectly.

Part Number	Year	Make	Model	Engine	Diameter	List Price	Weight
G8HDR	2008-2010	Pontiac	G8	6.0L	1-7/8" primaries with 3" dia. slip fit collectors	\$1,050.00	35 lbs
