

Stainless Works New Product Announcement

Stainless Works introduces a new line of 304L SS mandrel bent exhaust products for the 2010 Mustang GT. Headers with either 1-5/8" or 1-3/4" primary tubes and 3" catted or off road lead pipes are available to fit factory connection points. We have many product combinations including off road manifold products with x-pipes, and 3" dual catback exhaust systems with x-pipes and chambered or more aggressive s-tube turbo mufflers. Exhaust systems include SS polished tips with all necessary hangers and clamps.

Part Number	Year	Make	Model	Engine	Diameter	List Price	Weight
M05H	2010	Ford	Mustang GT	4.6L	Headers with 1-5/8" primaries and 3" catted leads	\$1,609.02	50 lbs
