

## Stainless Works New Product Announcement

Stainless Works announces the introduction of our **55-57 T-Bird 304L SS Mandrel Bent Exhaust Systems**. This product offering was developed to replace our pressure bent systems, and provide better fitment and repeatability than the older designs. Systems are available in multiple configuration options, which include individual pipes, mufflers, resonators and full systems with and without resonators and/or mufflers. Systems are tig welded and sold less hangers and clamps. Muffler pricing has been reduced, while other pricing remains unchanged.
