

Stainless Works New Product Announcement

Stainless Works (SW) announces our new 304L SS lifetime warranty CNC mandrel bent products for the **Hummer H1** diesel 6.2L and 6.5L engines. Headers with 1-5/8" dia primaries and 2.5" dia slip fit collectors are built as replacements for the factory manifolds to fit the SW Y-Pipe. Two 2.5" Y-pipes are available for either the direct factory replacements or to fit to SW headers and the SW exhaust system. A 3" 304L SS exhaust system connects to the factory Y-Pipe location and consists of a 5" x 9" x 30" long chambered turbo muffler with turnout. The optional 3" 304L SS vertical stack with heat shield also directly connects to the SW muffler outlet. All necessary clamps, flanges, hangers and hardware are included with each.

Part Number	Year	Make	Model	Engine	Diameter	List Price	Wt.
H1HDRV	1992-2004	Hummer	H1	6.2L, 6.5L	Headers - 1-5/8" primaries with 2.5" Y-pipe with 3" outlet	\$1,190.00	35 lbs
H1FACTY	1992-2004	Hummer	H1	6.2L, 6.5L	2.5" dia factory replacement Y-pipe	\$349.00	20 lbs
H1ICB	1992-2004	Hummer	H1	6.2L, 6.5L	3" dia exhaust system with muffler, turnout	\$895.00	50 lbs.
H1STACK	1992-2004	Hummer	H1	6.2L, 6.5L	3" dia vertical stack to right rear quarter panel	\$564.29	20 lbs.
