

Stainless Works New Product Announcement

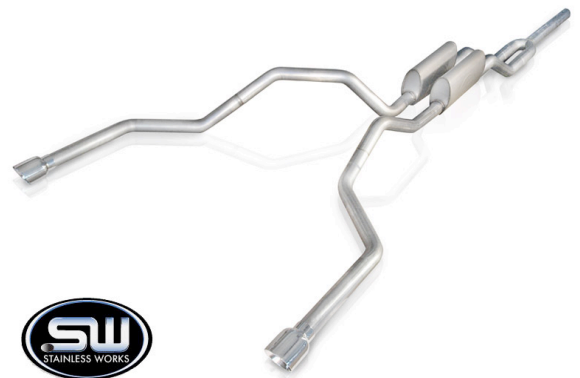

Stainless Works introduces the newly redesigned **2004-2008 Ford F-150 5.4L 2WD/4WD Headers and Dual Exhaust Systems**. The systems now fit both 2WD and 4WD, with refit headers and 2.5" leadpipes to use larger, freer flowing cats and most importantly, these systems are capable of fitting the Supercrew 5.5' and 6.5' beds as well as the Supercab 5.5' bed. Made completely from 304L SS, these CNC mandrel bent systems outflow, outperform and improve gas mileage for your new truck. Headers are available with 1-3/4" primary tubes with 2.5" lead pipes and high flow cats or offroad lead pipes. Headers and 2.5" Dual Exhaust Systems are available to fit the factory "Y" connection or as headers to true duals to which come with an X-pipe and lead pipes. All Exhaust Systems have dual turbo mufflers and are available with dual exits and 3.5" slash cut double wall polished tips to either exit out behind the passenger rear tire or both sides under the rear bumper.

Part Number	Year	Make	Model	Engine	Diameter	List Price	Weight
08F150HDCAT	2004-2008	Ford	F-150	5.4L	1-3/4" primaries, 2.5" catted lead pipes with X-pipe	\$1,550.00	55 lbs
