

Stainless Works New Product Announcement

Stainless Works announces their new Double Wall Tips. Made from 304L Stainless Steel tubing, these tips are tig welded and mirror polished with notches for clamping or welding. Tips are 9" long and available in 3", 3.5" and 4" OD bodies with either 30 degree slash cut or straight cut ends. Inlet are sized to your specifications as 2.25", 2.5" or 3.0" ID's. These tips can also be ordered as special lengths, diameters and/or body sizes as needed. Fax special requests with sketches to 440-543-9183.
