

Stainless Works New Product Announcement

Stainless Works announces their new performance 4:1 **Slip Fit Merge Collectors**. Made from 304L Stainless Steel tubing, these merge collectors are fully tig welded with a designed slip fit of the header tubes into the inlets. These also have the desirable built-in merge spike in the outlet to best direct exhaust flow. Inlets tube sizes available include 1.625", 1.750", 1.875", 2.000" and 2.250" dia. Sizes up through 2.000" dia. are necked down to 2.500" dia. and have a reverse cone up to a 3" OD collector. The larger 2.250" dia. inlet merge collectors are necked down to 2.750" dia. with a reverse cone up to a 3.5" OD collector. These are the very best quality and provide a tremendous value for 304 SS components! Price is per each.

Part Number	Description	List Price	Weight
MC4163-300	1.625" dia. primary tube size with 2.500" dia. neck and 3" dia. slip fit collector	\$198.00 ea.	5 lbs.
MC4175-300	1.750" dia. primary tube size with 2.500" dia. neck and 3" dia. slip fit collector	\$198.00 ea.	5 lbs.
MC4188-300	1.875" dia. primary tube size with 2.500" dia. neck and 3" dia. slip fit collector	\$198.00 ea.	5 lbs.
MC4200-300	2.000" dia. primary tube size with 2.500" dia. neck and 3" dia. slip fit collector	\$198.00 ea.	5 lbs.
MCLC4225-350	2.250" dia. primary tube size with 2.750" dia. neck and 3.5" dia. slip fit collector	\$198.00 ea.	6 lbs.
